## UpSet Plot de Términos GO y Clusters

- nucleic acid transport (GO:0050657) neuron projection organization (GO:0106027)
- neuron projection maintenance (GO:1990535) gative regulation of low-density lipoprotein receptor activity (GO:1905598)
- negative regulation of amyloid-beta formation (GO:1902430) ve regulation of amyloid precursor protein catabolic process (GO:1902992)
- microglial cell activation (GO:0001774) lipoxygenase pathway (GO:0019372)
- carboxylic acid catabolic process (GO:0046395) axo-dendritic transport (GO:0008088)

- aromatic compound catabolic process (GO:0019439) amyloid-beta metabolic process (GO:0050435)

- amyloid-beta formation (GO:0034205) amyloid precursor protein metabolic process (GO:0042982) amyloid precursor protein catabolic process (GO:0042987)
- - Notch receptor processing, ligand-dependent (GO:0035333) Notch receptor processing (GO:0007220)
